Request

Pursuant to North Carolina's public records law, N.C. Stat. § 132-1 *et seq.*, I write to request copies of the following records relating to the University of North Carolina Center for Information, Technology, and Public Life. As used in these requests "record" has the broadest definition under the law and means "all documents, papers, letters, maps, books, photographs, films, sound recordings, magnetic or other tapes, electronic data-processing records, artifacts, or other documentary material, regardless of physical form or characteristics." N.C. Stat. § 132-1(a). "Communication" means any public record that reflects interaction between two or more people, including memos, emails, text messages, iMessages, WhatsApp messages, and any other means of correspondence.

All requests are limited to the timeframe from January 1, 2020 to the present. Unless otherwise noted, all requests are limited to the custodians Daniel Kreiss, Francesca Tripodi, Tressie McMillan Cottom, Shannon McGregor, Meredith Clark, Shannon Malone Gonzalez, Amanda Reid, and Corban Davis.

1. All records containing the terms "National Science Foundation" or "NSF" or any other known abbreviations or names to refer to the National Science Foundation.
2. All communications between any of the above-listed custodians and federal government officials or employees with a ".gov" or ".mil" email address.
3. All records that reference the Knight Foundation.
4. All communications between any of the above-listed custodians and officers or employees of the Knight Foundation with a "knightfoundation.org" email address or other email address known to belong to the Knight Foundation.

5. All communications between any of the above-listed custodians and officers or employees of Meta, Facebook, Instagram, Alphabet, Google, YouTube, Snap, Twitter, X Corp., or Reddit.
6. All records returned by a search of the terms "censor!"; "free speech"; "First Amendment"; and "throttle!".

If you object to any request based on the grounds allowed in the public records law, please email me so that I may clarify my request. I respectfully request the University waive all fees associated with this request because all records can be provided electronically. Alternatively, I agree to pay any reasonable fees not exceeding \$1,000 that are permitted by law for the processing of this request. If you anticipate the fees will exceed \$1,000 please notify me by email before processing this request.

Please produce all records in their native electronic format with all associated metadata. Please send the response to this request via email to mhoffmann@ADFlegal.org.

Thank you for your attention in this matter. Should you have any questions or concerns, please do not hesitate to contact me via email.

Sincerely,

Mathew Hoffmann

Message to requester

Requester + Staff

The University processes requests as promptly as possible and, generally, in the order they are received.

Broader and more vague requests (for example, "all documents," "all names," or "all emails" covering an indefinite time period) will likely receive a request for clarification prior to any collection or review of records.

Because of the large volume of requests and a legal mandate to

review every page to protect confidential information, it often takes time before we can start processing a new request.

We post all public records requests to nextrequest.unc.edu. For more information about the public records process at UNC-Chapel Hill, visit <https://nextrequest.unc.edu/faqs>.

Sincerely,

The Public Records Office

The University of North Carolina at
Chapel Hill
